

# THANK YOU!

## Representative Don Vruwink

**Thank you** for the opportunity to meet and share our stories. We appreciate your willingness to listen and act on our requests to ensure service options continue to advance for people with diverse abilities. We hope that Wisconsin continues to be a state that ensures employment and residential options are chosen by the people who need them and not limited by government.

### OUR MISSION:

Unite persons with diverse abilities and their family members to **advocate** in a grassroots effort, create **awareness** in the community and **advise** others to ensure a full array of service options and opportunities.
